

VI.5.3D-SYSTEM-PLOTDAYS PROGRAM FCST HCL TECHNIQUE PLOTDAYS

Purpose

Technique PLOTDAYS sets the number of days for which an AFOS graphics plot will be generated.

Valid values are 1 through 10.

If PLOTTP24 is NO (0) then PLOTDAYS is not used.

If PLOTDAYS is less than the number of days in the run then the most recent days are plotted.

The Global default is 10.

This Technique is Universal.

Form of Input

PLOTDAYS(integer)

where integer is 1 through 10 specifying the number of most recent days to plot

Example

PLOTDAYS(2)

The 2 most recent days will be plotted if PLOTTP24 is 1 or 2 and the number of days in the run exceeds 2.
